

July/2012

Biomass

The Biomass area has been established on JPR Open Space and located for easy access for the members. The use of this area is limited to green waste generated by the members, or their hired contractors, in the performance of normal maintenance. The area is controlled by a locked gate to assure there is no outside use. Usage is based on the following rules:

Green waste removed for fire safety is limited to brush, plant material, and branches with a diameter less than 6 inches. Materials should be placed in a manner to maximize space for additional users.

Cheat grass, pine cones and pine needles should be dropped in the designated area (away from the slash pile area.)

ABSOLUTELY NO TRASH, PLASTIC, LUMBER, TREE STAKES, ROOT BALLS, TREE STUMPS, ROCKS; HORSE MANURE/ANIMAL DROPPINGS, GARDEN/LAWN TRIMMINGS, CALCIFIED WOOD, OR NON GREEN WASTE MATERIAL IS ALLOWED!

The gate should be kept locked when not in use. A key can be obtained from any JPR Board member or the Association Manager. The key is not to be duplicated or loaned out, and is to be returned ASAP when finished. When utilizing a contractor please provide them with a copy of the rules!

JPRCA BOD

John Robertson, 775 265-7661
292 Tiger Wood Court

Bill Nichols, 775 265-2145
220 Sheridan Creek Court

Richard Treinen, 775 265-1522
120 Summit Ridge Way

Gene Ezell, 775 265-1230
259 Five Creek Road

Bob Lautzenhiser, 775 265-0253
